Alcon Constructions

Construction activity needs firm foundations. We have them! We have people who are professional in attitude, committed to their finger tips, soaked in technical know-how, spirited in accepting challenges —they rival the efficiency of machines but never ignore the human and professional touch

Their inspired imaginations crystallize our endeavours, and, also provide the requisite resilience and the strong base for future construction activity.

This is the secret of our spectacular growth within a decade. In India, we build luxury Hotels, Industrial Projects, Shopping Complexes, Cinema Houses and a variety of Housing Projects for the private, Government and Multinational sector.

We have made considerable headway in foreign countries too. This could not have been possible without creating a climate of confidence. The projection of our expertise, professionalism, honesty and the resultant excellence, has compelled construction business abroad to give us a second look and then sign on the dotted line. Our achievements abroad include Industrial Structures, Housing Complexes, luxurious Villas, etc. And we pride ourselves on being fully conversant with the proper utilization of local construction material.

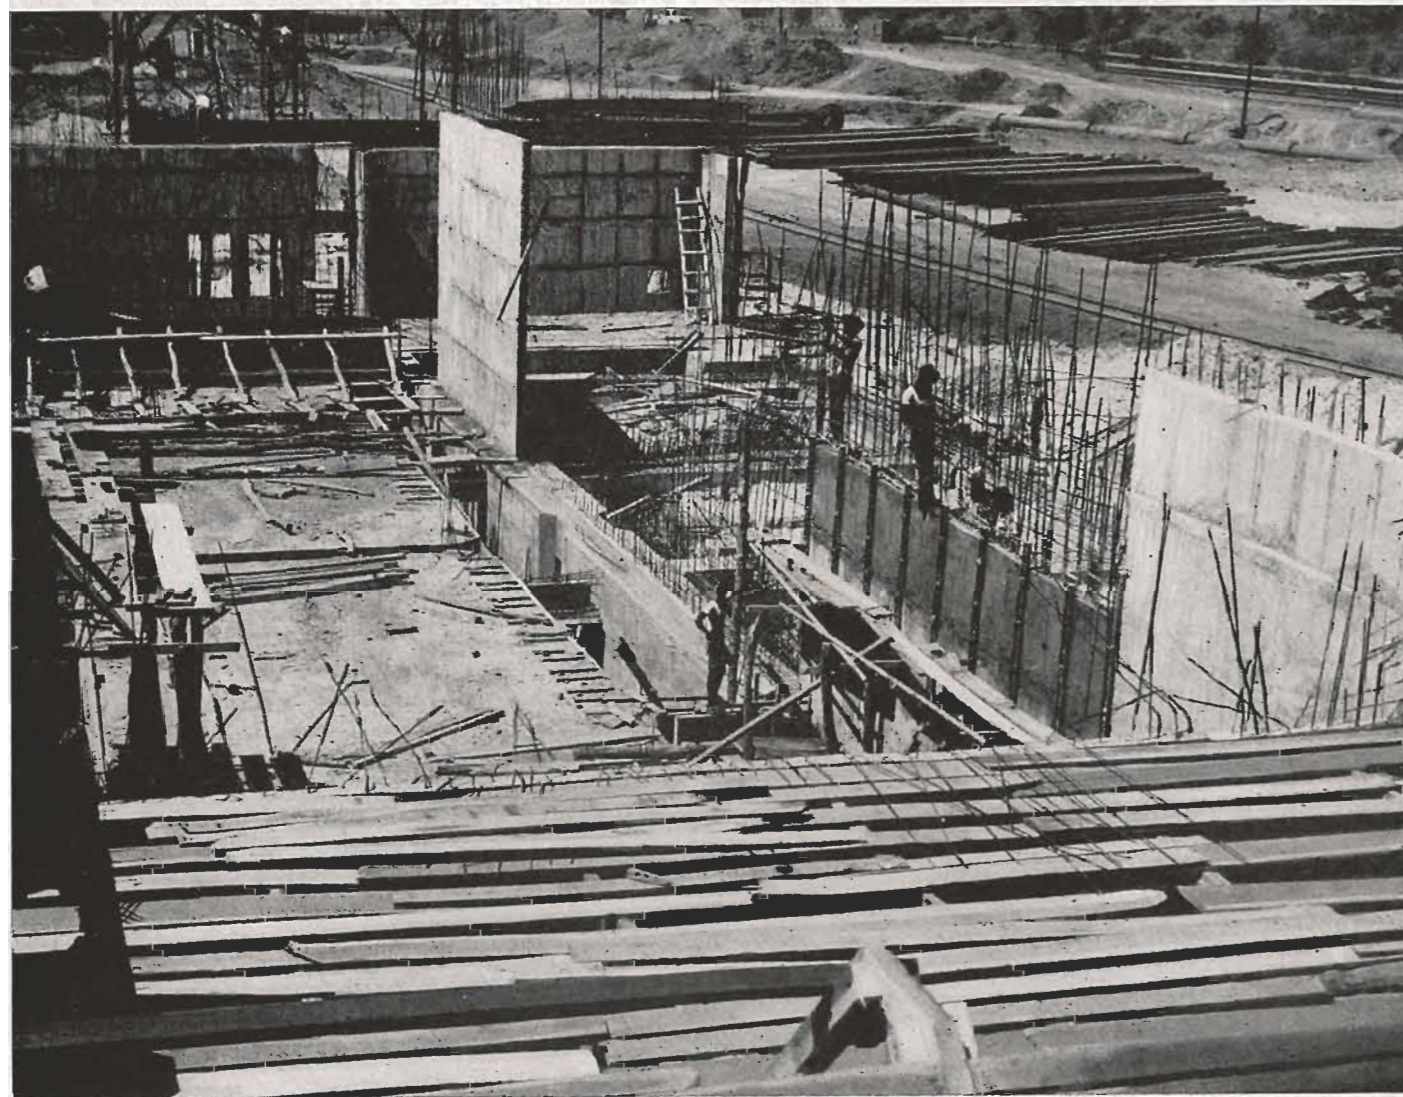

But this is not the end. It is the beginning of our story—a peep into the glorious future we are striding towards.

Samrat-Ashok Twin Theatre

Built in record time!
Just nine months!
This eye-catching and comfortable twin cinema house has a shopping complex built around it. This construction does justice to the world famous charm and beauty of Panjim — the beautiful capital of Goa.

The well-known cinema designer M/s Architectural Corner are responsible for this exquisite design.

**Power Sub-station
for the Marmagao
Port Trust**

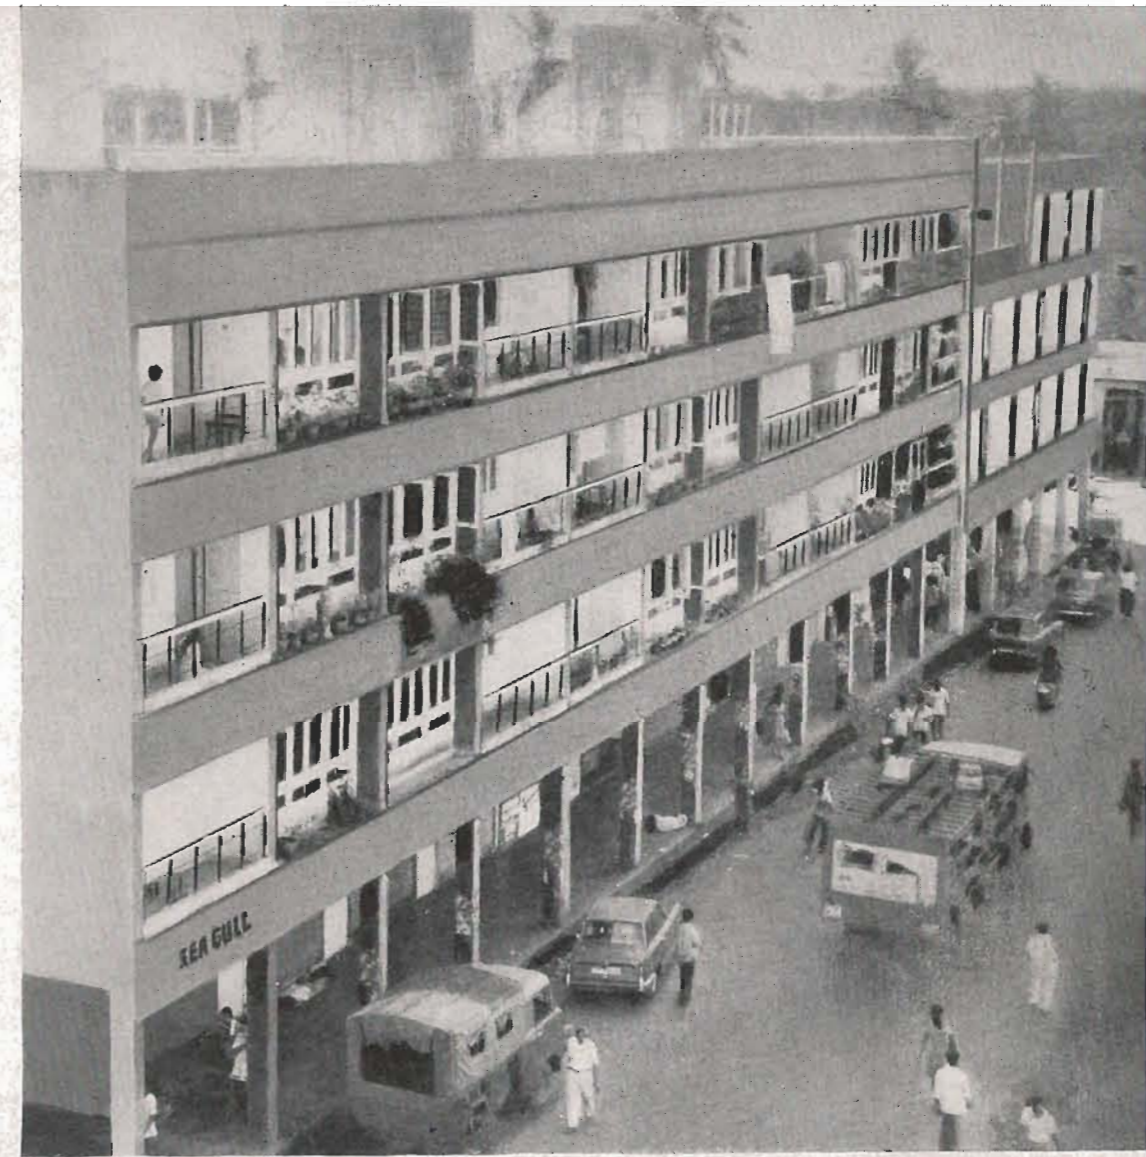

One of the largest
power sub-stations in
the west coast of
India with an exclusive
feature that it has a
complete folded
roof slab.

**Housing Societies
(Panjim)**

Housing societies
constructed at Panjim
aim at the middle
income group who
deserve a better deal
for their level of
income. The needs of
this income group
are fully realized in
designs and construc-
tions provided in
toto by Alcons.

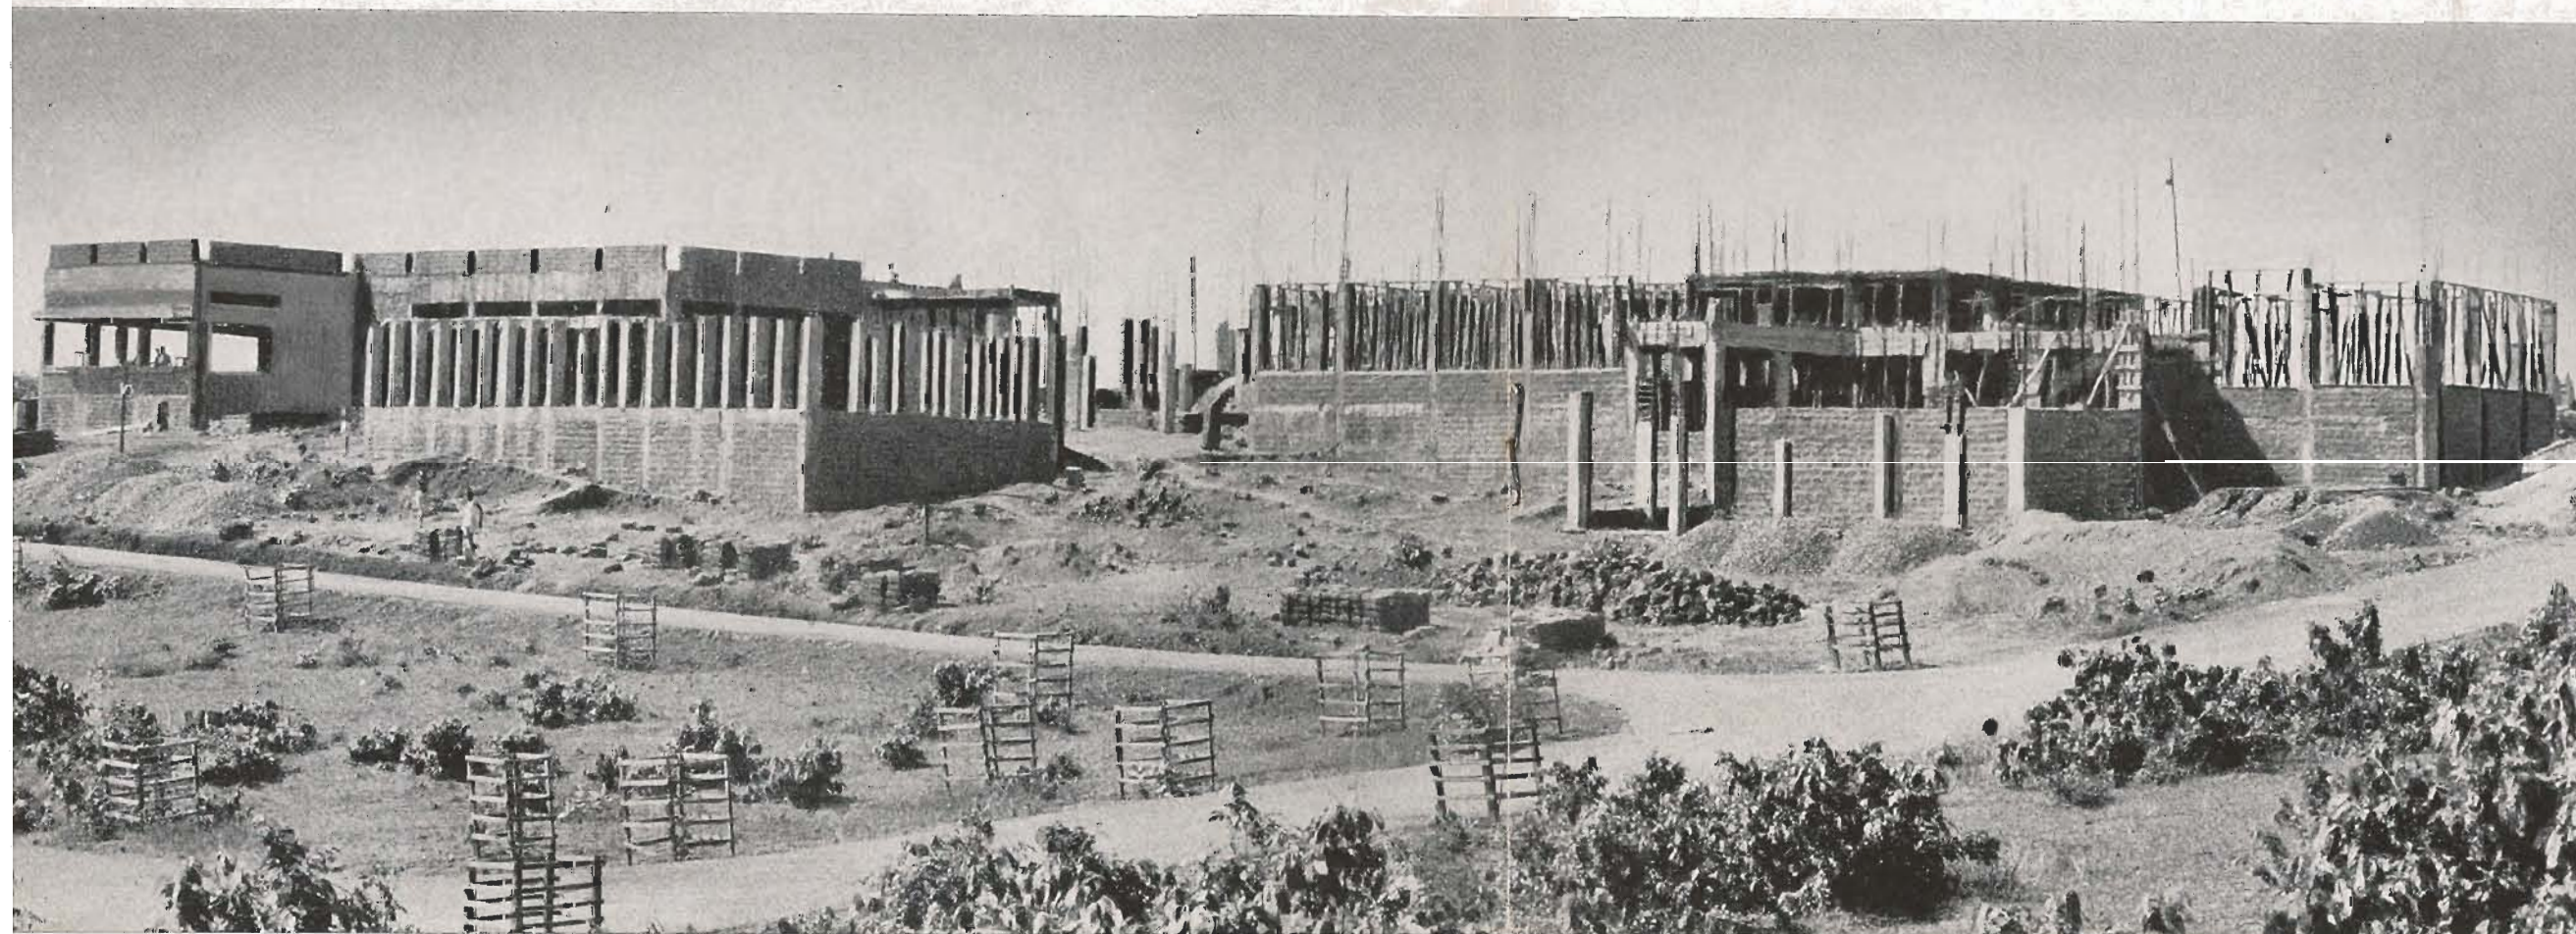

**Housing for
Marmagao
Municipality (Vasco)**

India's millions cannot
afford luxury. But
they deserve basic
amenities at a low cost.
The housing complex
for the low income
group done for
Marmagao Municipal
(Vasco) fulfills these
aspirations.

Seminary and Pilgrim House

Being built for the Catholic Seminary at Pilar Goa, this magnificent building is the creation of architects Lucio Miranda Panjim, Goa.

Diamond Factory

Polishing raw diamonds for export is one of the areas where India really scores. To keep the scoring level high a diamond factory is under construction by us. Designed by one of India's leading architects, M/s Master & Associates, this factory is being completed within six months.

Besides the aesthetic and functional aspects of the design there is also a greater satisfaction — constructing a place of work which will give employment to 600 skilled workers.

Alcon & its Men

Victor Albuquerque and **N.S.N. Counto** are directors of this fast blossoming group of Alcon companies. Both are rich in resources and bring out the best in each other. Qualified professional engineers, both have vast experience in the management of construction and the philosophy behind it. It is here that their unique personal touch pays off.

Sylvester D'Souza (Chief Engineer— India)
An extremely imaginative mind welded to the needs of construction designs. And they flow in controlled varieties. Extremely knowledgeable in various branches of civil engineering, his experience in the realm of structure is very valuable.

S.V. Gadgil (Chief Engineer —Overseas)
He has deep and far flung experience in construction since he has garnered it in India and abroad. He has worked with honour in world renowned companies such as Cementation and Shapoorji & Palonji, etc.

But the brilliant top layer is ably and efficiently supported by highly qualified, skilled and conscientious civil engineers, designers, technicians, administrative and finance personnel and last but not the least an army of skilled labour.

Bamboo Motel

The peaceful pleasures of Goa are enhanced by this Bamboo Motel (P'za). A lovely Goa resort becomes lovelier. India's leading architects M/s Gregson Batley & King have designed this thing of beauty.

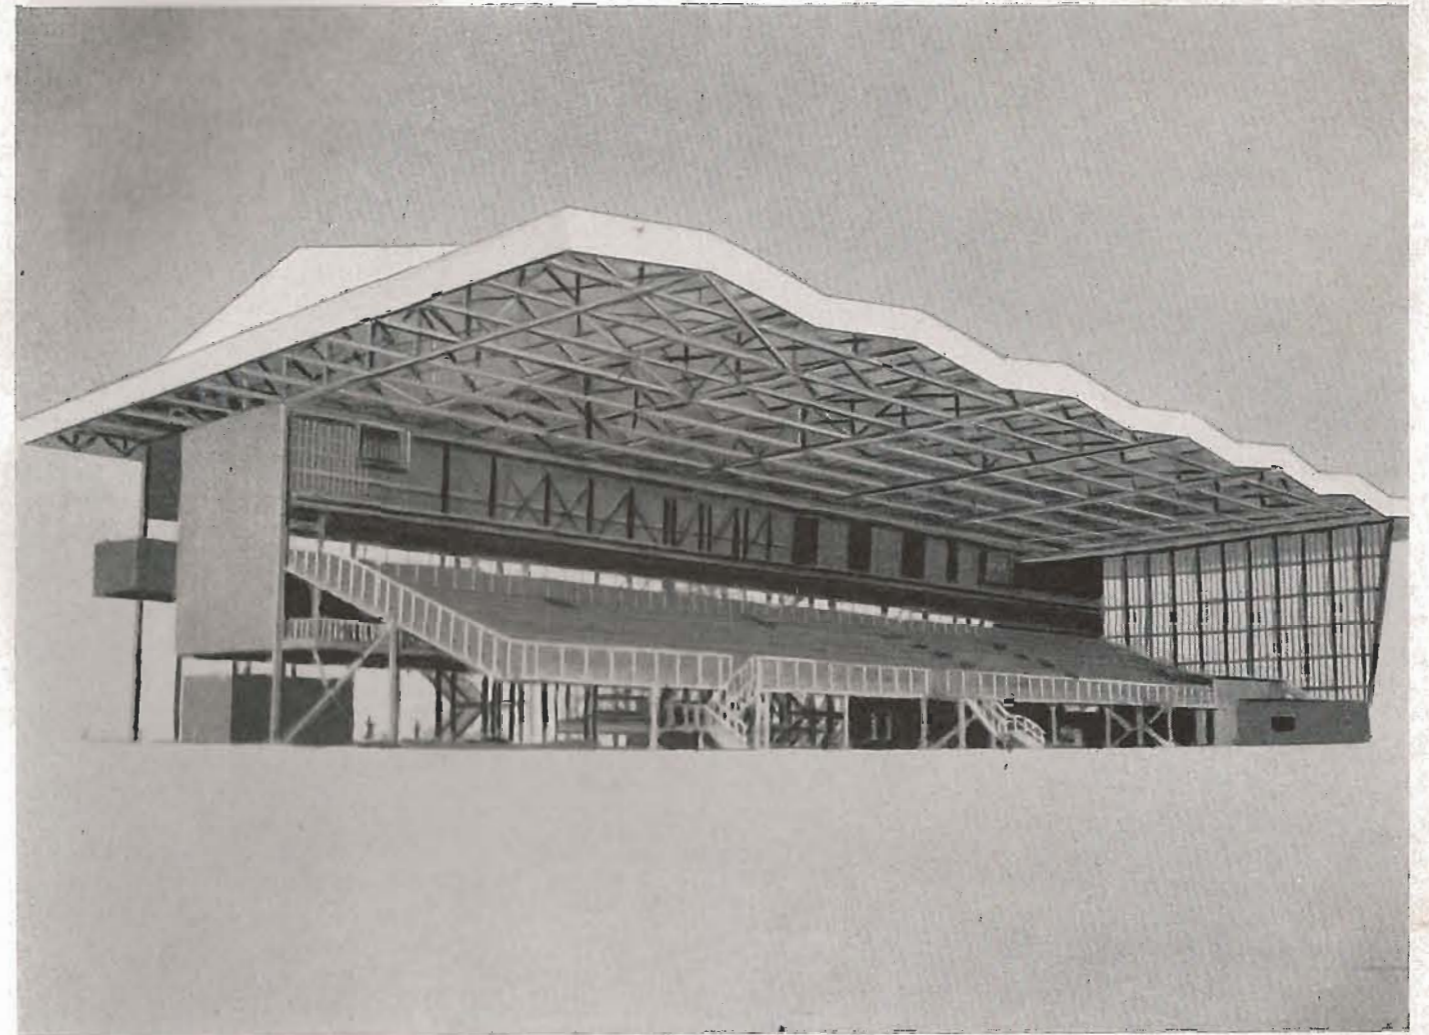

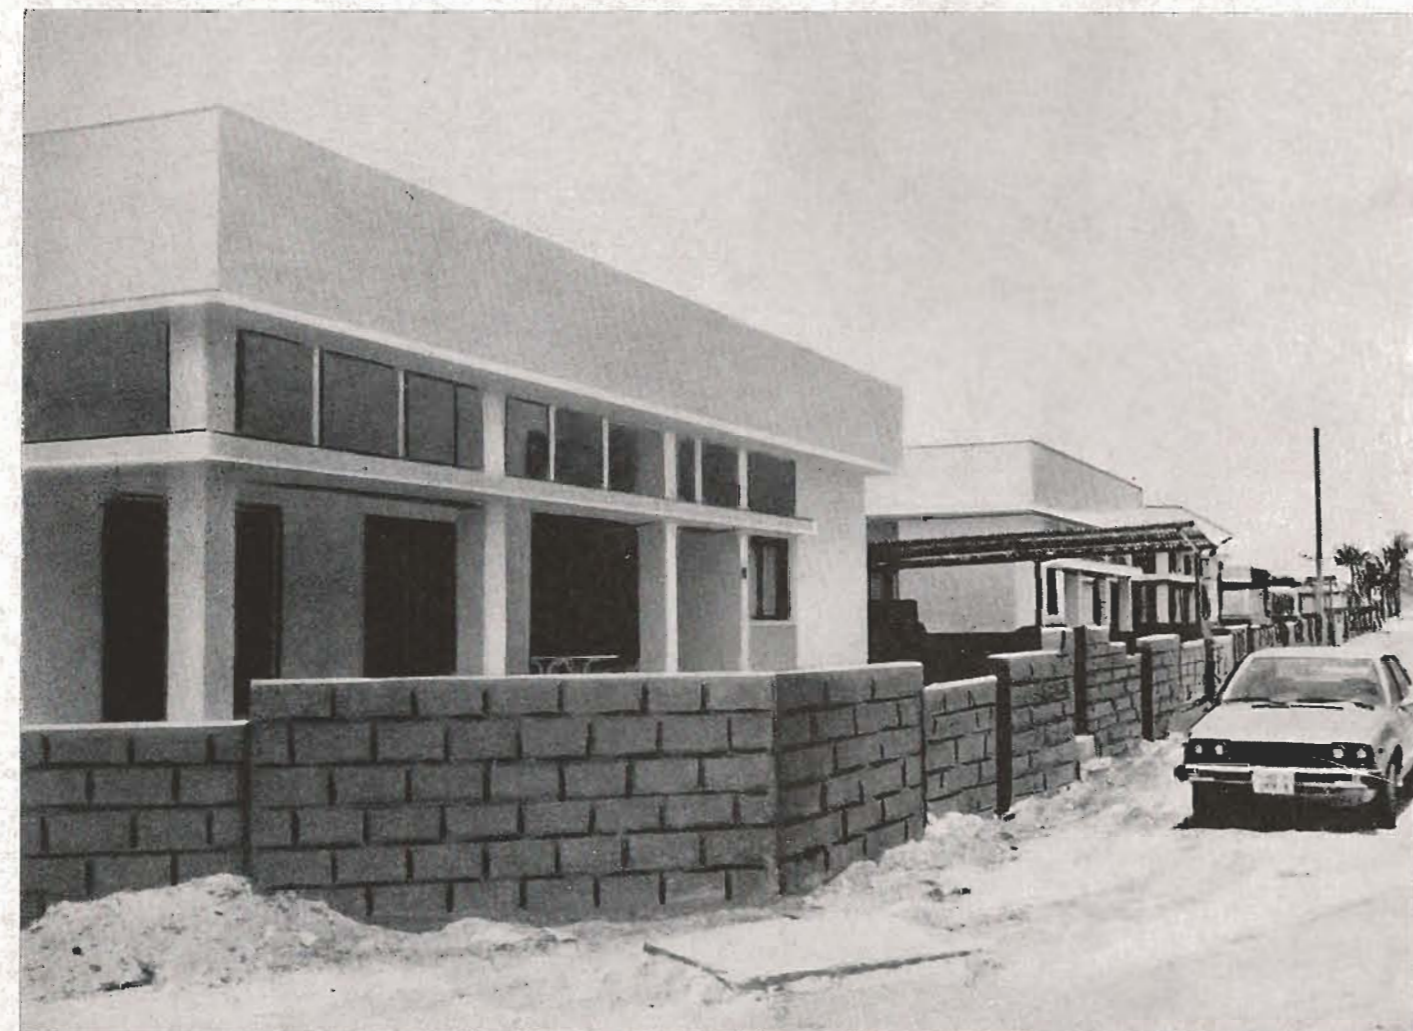

Tourist Hostel (Vasco)

The Indian tourists should not be neglected at the cost of the affluent foreign tourist. The Tourist Hostel (Vasco) is a government resort to cater to the needs of the Indian tourist in his efforts to discover his country and enjoy its variety.

**A Complex of Villas
at Bahrain**

A foreign landscape has to be appreciated in depth to create a housing complex. In Janoosan, a village of Bahrain, a complex of 24 beautiful villas has been constructed to meet the challenge of aesthetics and comfort of the Bahrain landscape.

**Grandstand for the
Sakheer Race
Course at Bahrain**

Most of the civil works (except steel work) for one of the biggest grandstands in the Middle East was constructed by us. The consultants for the works were M/s Mobsby and Haines architects London.
